NUMB. 1876.] THE

South-Carolina GAZETTE.

THURSDAY, OCTOBER 10, 1771.

☞ THE Printer of this Paper being determined to have all his Affairs settled by the First of *January* next, so as he may depart the Province by the Beginning of *April* following, GIVES THIS EARLY NOTICE thereof, to all Persons indebted to him, that they may be prepared to make *Payment* of their Accompts as they are sent in or delivered to them, which (as he shall have much to do in a little Time) he hopes they will do, without giving him the unnecessary Trouble of repeated Calls. Those of his Subscribers in the Country who are known to him only by Name, are requested to give Orders to their Friends in Town to pay off their Arrears. *July* 1, 1771.

Charles-Town, South-Carolina, Sept. 24, 1771.

Mr. TIMOTHY,

IN the MORNING CHRONICLE and LONDON ADVERTISER of the 13th of *May* last, I have observed advertised for Sale, "at Garraway's Coffee-House, by Messrs. Wilson and Morley, "Brokers, TWENTY SERONS OF SPANISH INDICO, WARRANTED GENUINE."

If this was meant as a Reflection on the Traders in INDICO of the Produce of *this Province*, or *East-Florida*, for having reduced it to the *Spanish Shape*, and repacked it in *Serons*, it was very unjust. The Makers and Venders have a Right to give it any Shape, and pack it in what Manner they please. Judges never buy from *outward Appearance*; they will examine its *inward Quality*. Therefore, there can be no Fraud in the Imitation.

On the contrary, those are to be commended who imitate the best; for it is well known, that every Artifice has been made Use of, to *depreciate* Carolina and East Florida Indico, and a Prejudice raised against it merely because it does not sell by *Eighteen Pence* to *Two Shillings* a Pound so high as the Spanish or French (though every Way equal in Quality) unless put into *Serons*, or *French Casks*, and WARRANTED GENUINE. Thus has the *Shape* and *Package* given the Credit of making *the best* of *our Indico*, to the Spaniards and French, and induced a Belief in many, that we *cannot* make it so good. And thus the Mercers, in order to get off their fine Silks, are often obliged to call them French, though wholly wove in Spitalfields.

For fifteen Years past, upwards of *five hundred thousand* Pounds Weight of INDICO has been annually made (on a Medium) in this Province. Of this Quantity, I now declare, that I could have ventured, as Inspector-General, to have affixed my Seal (which is a Crown over G. R.) to *three hundred thousand* Pounds a Year, after having examined and garbled it, in Testimony of its being *equal* to the *best French* or *Spanish*, of the COPPER or PURPLE Kinds: And that the FLORA, when separated from an inferior Quality which generally comes mixt with it from the Plantations, is *equal* to *any Spanish*.

As to the FLORA made in *East-Florida*, if the Sample which I have seen, was taken promiscuously from the Cask, I do aver, that it is, beyond Doubt, full *as good* as *any Guatimala*: Besides, they are fortunate in having a Gentleman residing there, who, at my first coming into this Province, I found to be one of the best Makers of that Kind in it, and to whose Judgment only I submit; and he so well knows how to imitate the Spanish Make, and to pack in Serons, that I am of Opinion, the Spaniards themselves would be at a Loss to judge whether it was made at *Guatimala* or not.

Thus *unsolicited* and *unbiassed*, I think it my Duty publicly to declare my Opinion of Carolina and East-Florida Indico, according to the best of my Judgment, after near forty Years extensive Dealing and Experience in that Dye. And as a farther Proof that the above is really my Opinion, I do request, that whenever the Surveyors of his Majesty's Customs for allowing the Bounty at Home, or any Importer or Purchaser, can *prove* that any one Cask, to which my Seal is affixed, is not found, on turning out, Tops and Bottoms alike, free from Dust, or any inferior Quality, so as not to differ *Two Pence Sterling* per Pound, from one Cask to another, that *they will send a notarial Certificate thereof* to the Governor—for I do not desire to hold any Commission under his Majesty's Great Seal of the Province (even if there was a Salary annexed to it) but on the Footing of Honour and Justice.

That there is so great a *Variation* in the Prices of OTHER INDICO shipped from hence, which cost one Price here, is not my Fault; as no Planter or Merchant is under any Obligation to have it inspected and garbled.

I therefore shall devote my future Attention wholly to the Service of those Gentlemen, who from the Year 1762 have employed me, to inspect, garble and seal their Indico, at the customary Fee of Two Dollars per hundred Pounds Weight, always exerting the same Care and Zeal to establish and maintain the Reputation of Carolina Indico, at Home and at foreign Markets, as I have hitherto done.—This is plain, and needs no Explanation.

And as I am sensible, that you, Mr. TIMOTHY, do most sincerely wish the greatest Prosperity to the Province, I beg you will publish the foregoing in your next Gazette, from one who disinterestedly has the Interest of this Country as much at Heart as any Native, and is resolved to spend the Remainder of his Days here, where Merit will meet with its Reward, without Partiality, from the highest to the lowest of its Inhabitants.

I am, Your obliged Servant,
MOSES LINDO.

LONDON, AUGUST 7.

A Correſpondent aſſures us, that on Thurſday laſt in the forenoon, the Duke of Grafton, Lord Mansfield, Lord Albemarle, Lord North, the Duke of Portland, and ſome others, made a viſit together to the Marquis of Rockingham, at his houſe in Groſvenor-ſquare; and remained in conference together near two hours. What is in the wind our correſpondent does not pretend to conjecture, but he promiſes to bring proof of this conference if the parties contradict it.

AUGUST 8.

A correſpondent aſks, why the royal family ſhould pay ſo much attention to the land-forces of this kingdom, which they do by their reviews and donatious, as if we were a continental people; when the navy, which from our ſituation ſhould be a royal concern, is left to the guidance of old women and boys?

We are aſſured that the two Kenedies, through the intereſt of their proſtituted ſiſters, are appointed to places of conſiderable emoluument in America.

The report that Lord Camden will ſoon be reinſtated in the Chancellorſhip gains ground daily.

It is ſaid Lady Waldegrave has a penſion of 5000l. per annum on the Iriſh eſtabliſhment. The above lady will reſide at Windſor during the voyage of the Duke of Glouceſter up the Straits.

AUGUST 12.

Thurſday the baggage of General Hervey and Colonel Deſaguliers was ſent down to Portſmouth, to be put on board the Venus frigate, they are to attend the Duke of Glouceſter on his voyage up the Mediterranean; who, it is whiſpered, will pay a viſit to the Doge and Senate of Genoa, with whom he has an important commiſſion to execute.

Saturday Dr. Solander and Mr. Banks, accompanied by Sir John Pringle, by his Majeſty's order, attended at Richmond, and had the honour of having a private conference with his Majeſty on the diſcoveries they made on their late voyage.

They write from Luton-Hoo, in Bedfordſhire, that the Right Hon. the Earl of Bute is in a better ſtate of health than for ſome time paſt; ſo that the report of his propoſing to viſit the continent is premature.

AUGUST 13.

We are informed that his Royal Highneſs will not travel under the title of Duke of Glouceſter, but in the character of Earl of Connaught, in order to avoid, as much as poſſible, the fatiguing ceremonial people of the higheſt rank are obliged to ſubmit to.

His Majeſty has appointed William Stewart, Eſq; to be Lieutenant Governor of the iſland of Tobago.

The Jews of Alſace have offered the French King, fifty millions of livres, for leave to ſettle in Paris, to enjoy the privileges of natives, and that they may have a certain old playhouſe, which is now out of uſe, for a place of religious worſhip, which that monarch has now under conſideration.

AUGUST 14.

The journeys of the Earls of Hertford and Hillſborough to Ireland, are confidently ſaid to be more political than on their own private concerns, and that they are to tranſact ſome important affairs with the Lord Lieutenant before they return to England.

Sir George Colebrooke, and ſeveral other gentlemen of large fortune, are now embarked in an American plan of ſuch extenſive importance, that the gain or the loſs muſt be prodigious; and therefore we may conclude the proſpect extremely flattering indeed, when on ſuch conditions they are induced to become adventurers.

They write from Sicily, that an inſurrection had happened at Palermo in that iſland, occaſioned by a ſcarcity of bread, in which the people had maſſacred the Viceroy's guards, and let the Viceroy himſelf hardly eſcape with his life.

A letter from Paris ſays, that the Court has given orders for four regiments of cavalry to be quartered immediately within that city. One regiment to be on guard at a time within the King's palace. The King of France had not ſtirred out of his chamber, excepting to his chapel and to the council room, for above ten days then paſt. Some very important diſcoveries relative to the deſigns againſt the King's perſon were juſt come to light.

AUGUST 15.

The intended tour of his royal higneſs the Duke of Glouceſter, is to be firſt to Liſbon, from thence to Gibraltar and Minorca, at both which places he propoſes ſtaying for ſome time, to make a ſurvey of the fortifications, ſtores, and gariſons, from thence to Leghorn, and laſtly to Genoa.

Yeſterday there was but a thin levee at St. James's, there being only preſent of the miniſtry, Lord North, the two Secretaries of State, and Lord Sandwich, and the privy council that was ſummoned to meet is poſtponned till to-morrow.

All the letters, by the laſt French mail, concur in aſſerting, that there is at preſent a great coolneſs between the courts of Verſailles and Vienna, and that an open rupture is daily expected.

Laſt Friday the court of Seſſion in Edinburgh, upon application from the merchants there, ordered the ports to be opened for the free importation of all kinds of grain.

AUGUST 16.

Orders are given for the 3d, 15th, 20th, and 43d regiments of foot, to hold themſelves in readineſs to march for Portſmouth, where they are to embark for the Weſt-Indies.

According to private letters from Paris, a diſcovery of the laſt importance had juſt been made reſpecting the underhand and ſecret practices of a certain powerful court, in fomenting the preſent unhappy and inteſtine diviſions of France.

Letters from Madrid ſay, that no leſs than four couriers arrived in that capital from Paris on the 12th of laſt month, and that the following morning a grand council was held upon the ſubject of their diſpatches, which did not break up till late in the evening.

Extract of a letter from Chilons in Compeigne.

"*The diſtreſſes of this unhappy country ſeem rather to increaſe than diminiſh. A few days ſince a woman was found in the neighbourhood of this city, who had juſt expired, with two children near her ſeemingly at the point of death. Some proviſions were immediately procured and given the ſtarving children, which they devoured in the moſt voracious manner; notwithſtanding they were afforded all poſſible aſſiſtance, they died in a few hours after. The three bodies were opened, and a quantity of indigeſted herbs was found in their ſtomachs, which it ſuppoſed to be the only kind of food they had received for ſeveral days. Our miſeries are beyond deſcription, and they are increaſed by our neighbours, who leave their own country in hopes of finding relief among us, who are the moſt incapable of beſtowing it.*"

Wedneſday Admiral Sir Peter Dennis went to Richmond to take leave of his Majeſty; and on Munday he will proceed on his voyage to the Mediterranean in the Trident, with ſome other men of war.

Yeſterday Lieutenant Cook of the Royal Navy, who ſailed round the Globe with Meſſrs. Solander, Banks, &c. was preſented to his Majeſty by Lord Sandwich, and had the honour of preſenting to his Majeſty a compleat journal of the ſaid voyage, together with ſome curious maps and charts, that he had made of different places during the ſaid voyage, which were graciouſly received, and at the ſame time he was preſented with a captain's commiſſion.

The parting between his Royal Highneſs the Duke of Glouceſter and Lady Waldegrave, was extremely tender and affecting; their affectionate concern at parting was viſible to the whole court.

A great perſonage has ſent an order to the board of works, that whatever alterations, &c. Lady Waldegrave may order to be made in her apartments, ſhall be immediately complied with.

Extract of a letter from Portſmouth, Auguſt 4.

"Yeſterday about one o'clock his Royal Highneſs the Duke of Glouceſter arrived here, attended by General Hervey, Col. Deſaguliers, and Major Haywood; he was ſaluted by the gariſon upon his entrance into the town; his Royal Highneſs proceeded immediately to Spithead in a barge, with the Royal Standard on board, the different forts ſaluted him as he paſſed, as did the ſhips at Spithead twice, and otherwiſe ſhewed him all the honours his high rank demanded. The Venus, as ſoon as his Royal Highneſs was received on board, got under ſail and proceeded directly for Liſbon, in company with the Alarm, Capt. Jervis."

AUGUST 17.

It is the opinion of many perſons acquainted with the Miſſiſippi, that adminiſtration has been much to blame in neglecting a ſettlement on that river; as ſuch a ſettlement, beſides numberleſs commercial advantages, would form a ſtrong frontier for Weſt-Florida; which, in the preſent ſtate of things, will be inſtantly wreſted from us upon the firſt diſagreement with Spain, and open the enemy an eaſy paſſage into the back ſettlements of our American colonies.

Lady Waldegrave is to reſide at Kenſigton palace, during the Duke of Glouceſter's abſence from England.

Lady Waldegrave has declared to a particular friend, that ſhe does not expect his Royal Highneſs will return alive.

"A change of the miniſtry, notwithſtanding the reports of the day, is not at all probable; becauſe oppoſition is greatly enfeebled by a number of deſertions; becauſe the complaint of grievances is ſtale; and becauſe, if the miniſtry were able to keep the field political againſt a formidable foe, they are certainly able to maintain it now, againſt a vanquiſhed enemy." Such was the language of a diſtinguiſhed levee-dangler yeſterday at St. James's, and, in our opinion, there is no little force in his arguments.

The fable of the frogs and log was lately introduced into the Cabinet, and the neceſſity of playing the Stork ſtrongly inſiſted upon by a lawyer of diſtinguiſhed abilities.

Lord Mansfield has repeatedly obſerved of late, that in contending for the freedom of the Preſs, the people have really loſt it. The public Prints, ſays his Lordſhip, are abſolutely under a popular Imprimatur; and the directors of the ſeveral News-Papers are obliged, againſt their own conviction, to pandar to the prejudices of the times, for fear of decreaſing the number of their purchaſers.

AUGUST 19.

We hear that two experienced enginers are gone to take a ſurvey of the ſtate of the fortifications in Ireland.

The beaux and belles in this kingdom never ſeem to agree in faſhions; what one chuſes the other diſlikes. When the men are all waiſt, the women have no waiſt at all; when the men cut their hair and hats cloſe to their heads, the women raiſe theirs to the ſky; their ſhoes too the ſame, the women's feet are raiſed with high heels, and covered with ſhoe and ribbon, while the men have ſcarce buckles, heels, or ſhoes to their feet.

AUGUST 20.

A commiſſion has paſſed the great ſeal for appointing Charles Proby, Eſq; comptroller of victualling accounts of the navy.

As many people are ſubject to cramps when they go to bathe, or ſwim, which often endanger, and ſometimes prove fatal to them; it is recommended to all who go into the water, to tie ligatures moderately tight round their legs, a little below the knee, as a certain means to prevent the cramp.

Though Lord North is gone down to his ſeat at Dillington for a few weeks, he is not gone down to be idle; he has taken a variety of plans and ſchemes with him to conſider, which the continual interruptions in town would not allow him to weigh with proper deliberation.

A correſpondent obſerves, that the whole buſineſs of parliament is now a private quarrel about places; the ſeſſion opens and the miniſter is attacked; the attack produces a defence; the defence opens freſh ſources of accuſation; and the prerogation arrives before any thing of conſequence can poſſibly be done for the real advantage of the people.

BY Captain Edward North, who arrived here Yeſterday from Jamaica, we learn, that the whole Iſland had been ſhook, by a moſt dreadful Earthquake, which happened at 45 Minutes after 7 o'Clock in the Morning of the 3d of September, and which continued with unabating Violence 45 Seconds. The Agitation of the Water he deſcribes to have been exceſſive violent, as if the whole Sea was boiling, and the undulating Motion of the Earth every where perceptible, ſo that the Buildings in general were much rent, and otherwiſe much damaged. The Conſternation among the Inhabitants was ſo exceſſive, that from all parts they endeavoured to fly for Safety to the Veſſels.
